Subject: Tribes

Caleb: On a call with tribal leaders yesterday, most said their members were on edge about upcoming layoffs and UI. Thus far, I think most have been paying their workers, but this will be coming to an end. I think it would be helpful to have you do a phone conference with tribal leaders to discuss processes, etc. of course, there are rumors of the system not working etc. I am sure Wenona from the LGs office or Jamie from my office would be glad to help set it up. If this has already been addressed, never mind. Tony

Governor,

Thank you for reaching out. We have had discussions with the Menominee and Oneida tribes, but would be more than happy to host a conference call with as many tribes as would be able to join us to discuss UI and how to best apply, etc. The briefings we've had with legislature and other stakeholders have been well received and informative.

We will have our folks work with Jamie and/or Wenona to coordinate and will follow up with the results of the discussion.

Talk to you tonight!

Caleb Frostman, Secretary
Department of Workforce Development

Governor,
That's great news. Thank you for forwarding. We continue to expand capacity and work out kinks in our IT and Telecom infrastructure, but every piece of feedback from constituents who have interacted with our staff has been immensely positive.

Thank you for all you have done and are doing. I look forward to our cabinet call tonight. Hopefully everyone managed through a wholly bizarre and unsettling day in Wisconsin today.

You may remember speaking to Yvonne Hooks on the phone last week about their small business, Cliff Cooks Café, that has been offering free meals to those affected by COVID-19. Just wanted to give you an update after speaking with DWD regarding Yvonne's husband's UI claim. They were having trouble getting an answer as to whether his unemployment claim would be accepted or denied. DWD just informed me that they made a determination and Mr. Hooks UI claim was paid out yesterday.
