Thank you, Claire! Good to meet you, Meagan, Reid, and Richard.

We already have meetings scheduled about working with Madison, Green Bay, Kenosha, Racine, Eau Claire, Wauwatosa but are certainly interested in other jurisdictions, as well.

We're working on a Wisconsin-specific version of our [communications toolkit](#) with language about voter ID and absentee witness requirements informed by behavioral science. It would be great to do Zoom trainings for clerks about communications/voter education, operational planning, and could also facilitate sessions on more technical issues like curing absentee ballots, signature verification, etc.

Do you have any time to talk next week about how we can support your work? Right now, it looks like Monday morning, Wednesday, or Friday morning are probably best for us but we can work around your schedules.

Hi Meagan, Richard, and Reid,

I just wanted to reach out and connect you with Michael Spitzer-Rubenstein and Hillary Hall from the Vote at Home Institute in case you think other clerks or the WEC staff would find working with them useful.

I have been working with Hillary since early May. She was a tremendous resource in helping me decide to seek out a vendor to automate our absentee assembly process, as well as selecting drop boxes early on that were secure and met all of the requirements the WEC put forth last week.

I have been working with Michael to create inputs and outputs to help us determine staffing needs and staffing responsibilities at Central Count based on actual quantitative data. They have created a tool that is extremely useful in visualizing the time certain processes take. They will also be helping the Election Commission with our voter education communications around absentee voting and the messaging we will use. They have an extremely useful [communications toolkit](#) for clerks with zero resources to those that are hiring communication firms.

Hillary used to be a clerk in Colorado, so she also understands all of the other work we are doing and how precious and valuable time is.

All in all, they have essentially made my life much easier with the absolutely free technical assistance they are offering.
